

CLINICAL OVERVIEW

The clinic provides occupational therapy services on an out-patient basis. The occupational therapy student and client work together to establish a plan of care which addresses the client's individual and unique goals.

Student therapists have access to experienced faculty with varied clinical expertise in order to meet the specific needs of the clients. Clients are seen twice a week for one hour each session. We work with individuals with conditions such as:

- **Cerebrovascular Accident**
- **Traumatic Brain Injury**
- **Hand Injury**
- **Multiple Sclerosis**
- **Parkinson's Disease**
- **Spinal Cord Injury**
- **Cerebral Palsy**
