## \* Classroom Protocols

---

- 1) Students are expected to conduct themselves in a professional manner. This includes coming to class on time and having reading assignments done in advance.
- 2) Class attendance and participation is an important component of this course. Though attendance will not be formally taken, students will be responsible for in-class projects that will require active course involvement.
- 3) Handouts and/or additional readings may be distributed during class. If you miss a class, it is your responsibility to obtain copies of course notes and handouts from a colleague. Students will be responsible for content from every class, regardless of attendance.

## ≡ Program Information

---

**Program learning outcomes (PLOs)** are skills and knowledge that students will have achieved upon completion of the Psychology BA degree. Each course in our curriculum contributes to one or more of these PLOs. The PLOs for the Psychology BA degree are:

1. Knowledge Base of Psychology. Students will be able to demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
  2. Research Methods in Psychology. Students will be able to design, implement, and communicate basic research methods in psychology, including research design, data analysis, and interpretations.
  3. Critical Thinking Skills. Students will be able to use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to behavior and mental processes.
  4. Applications of Psychology. Students will be able to apply psychological principles to individual, interpersonal, group, and societal issues.
- Values in Psychology. Students will value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.

## ▮ Course Learning Outcomes (CLOs)

---

Upon successful completion of this course, students will be able to:

1. Recognize the major uses of psychological measurement procedures.
2. Recognize principles of administering, scoring, and interpreting psychological measures.
3. Understand basic descriptive statistics as applied in psychological measurement.
4. Identify and differentiate among the major ways of estimating reliability and validity.
5. Recognize the major characteristics, advantages, limitations, and proper uses of the following types of psychological measures:
  - a. tests of intelligence
  - b. tests of abilities and aptitudes
  - c. objective clinical measures

- d. projective clinical measures
- e. observational methods
- f. rating scales

## Course Requirements and Assignments

---

### Course Requirements and Assignments

"Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus."

### Content Review Activities

Four content review activities (CRA) will be administered during the semester. The CRAs will not be cumulative and will cover the material presented in class and readings. The CRAs will consist of multiple choice questions. The CRAs will be administered in Canvas on the dates indicated in the Course Schedule and will be available from 7:00am in the morning until 11:59pm at night.

### Cumulative Final Content Review Activity

"Faculty members are required to have a culminating activity for their courses, which can include a final examination, a final research paper or project, a final creative work or performance, a final portfolio of work, or other appropriate assignment."

As with the other CRAs, the cumulative final CRA will cover material presented in class and readings and will be in multiple choice format. The CRA will be administered in Canvas on the date indicated in the Course Schedule and will be available from 7:00am in the morning until 11:59pm at night.

## Grading Information

---

## Criteria

<u>Content Review Activity_(CRA)</u>	<u>Content Covered</u>	<u>Possible Points</u>
1	Chapters 1 & 2	100
2	Chapters 5, 6, & 7	100
3	Chapters 8 & 9	100
4	Chapters 10, 11, & 12	100
5	Chapters 1, 2, 5, 6, 7, 8, & 9	100
Total		500

### Letter Grade Determination

Your letter grade for this class is determined by dividing the total points earned in the class by the total possible points and using the breakdown of grades found below. For example, if a student earned 450 points, that would be divided by 500 possible points, the student's average would be 90%, and the final letter grade would be an A minus.

## Breakdown

"This course must be passed with a C- or better as a CSU graduation requirement."

Determination of Grades

Grade Percentage

A 93 to 100%

A minus 90 to 92%

B plus 87 to 89 %

B 83 to 86%

B minus 80 to 82%

C plus 77 to 79%

C 73 to 76%

C minus 70 to 72%

D plus 67 to 69%

D 63 to 66%

D minus 60 to 62%

F 0 to 59%
