COURSE DESCRIPTION

Theory and research on habituation, classical and operant conditioning, verbal learning, concept learning, and sensory, short-term, and long-term memory. Encoding, storage, retrieval and forgetting information.

The goal of this course is to help you build an appreciation for the central role that learning and memory plays in our lives. None of us could have a conversation, ride a bike, sing lyrics to a song, recognize our family, or even have a sense of our own identity if it were not for the ability to learn and to remember the past. As you'll find, the function of memory is never as obvious and astonishing as when it fails us. In this course, we will survey the most influential theories and findings in this important and extensive area of research. Basic research and theory will be discussed.

From the course catalog: "Memory, forgetting, concept formation, language learning, reinforcement and related topics. Traditional learning concepts, theories and findings with reference to contemporary classroom management, behavior modification and other applications."

This is an in-person course. We will meet in Hugh Gillis Hall 124 during our scheduled class days/times.

REQUIRED TEXTBOOK

Lieberman, D. A. (2021). Learning and Memory. SECOND EDITION. Cambridge, UK: Cambridge University Press.

The textbook is not an option; it's required. You will need it for assignments and exams.

COURSE REQUIREMENTS AND ASSIGNMENTS

Assignments in this class will be grouped into the following categories:

Review assignments

You will do this on discussion board. There are 10 review assignments. In each assignment, you answer one review question. All the questions come out of the textbook and lectures. You can see others' answers after you post your own. The assignment is graded based on completion. The purpose is to help you review the course materials and assess your understanding of the course content.

Reflection papers

You will complete one paper (about 2 pages, double spaced). In the paper, you describe a learning experience and explain how it relates to the course concepts. The assignment

encourages you to apply the concepts to explain your learning experience. The grading rubric will be posted on Canvas.

Participation

Participate in class group discussions. We'll have worksheets to complete and discuss in groups. I'll give credit for 6 worksheet discussions (1.5 points each). There will be 3 poster sessions (2 points each). For other activities, I may offer some of them as extra credit.

Exams

There are three exams. The exams are open-book and open-notes.

Exams 1 and 2 will contain 30 multiple-choice questions. Exam 3 will contain 40 multiple-choice questions.

All the questions come out of the textbook and lectures. The exams will be time-limited (1 hour 15 minutes for Exams 1 and 2; 2 hours 15 minutes for Exam 3) such that you still need to sufficiently study and prepare. If you have an extended time accommodation through AEC, I will adjust your time accordingly.

For each exam, there will be a review which will take place during the class session prior to the exam.

Make-Up Exams

All students are expected to take exams on the dates indicated in the syllabus. No make-up exams will be given unless you've requested an extension that has been approved by the instructor (see Late Assignments and requesting extension). Please notify me either before or no later than 24 hours after the exam date and time and state that you could not attend and are requesting a make-up exam.

Late assignments and requesting extension

Assignments are due on the date indicated on the course schedule. If due dates are changed, the new due date will be announced in lecture and posted on Canvas in a timely fashion. If you encounter an unexpected emergency outside of your control (e.g., COVID infection, eviction from your home, daycare closure, etc.), please notify me in advance of the due date and request extension.

No extensions will be given except in cases of reasonable and documented academic reasons, emergencies, serious illness, or similar seriously disruptive events. If such a circumstance should arise, please contact me as early as possible and be ready to provide documentation. Consideration will also be given to students whose dependent children experience serious illness.

Students with reasonable excuses may submit missed assignments without point deductions. You may submit a late assignment without reasonable and documented reasons, but you will receive **a 10%-point deduction**.

The late work must be turned in within one week of the original due date, and no later than two weeks after the original due date.

Academic integrity

Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage will not be tolerated. This includes obvious forms of academic dishonesty such as copying someone else’s homework assignment and cheating on quizzes/midterms/exams. It also applies plagiarizing published works or those of other students.

Additionally, academic dishonesty includes helping other students gain unfair academic advantage, such as posting or distributing quizzes/midterms/exams and answers to homework assignments. Any students who share such materials (e.g., via sites like Course Hero, Uloop, etc.) or who otherwise distribute such materials will be referred to the Student Conduct and Ethical Development office.

If evidence of academic misconduct is found, you will receive a zero on the assignment(s) in question, and I will file a report with the Office of Student Conduct & Ethical Development. See the office’s website for more information at <http://www.sjsu.edu/studentconduct/policies/>.

CLASSROOM PROTOCOL

Regular attendance is necessary to do well in the course. Although the course has an online resource, this resource is not a substitute for attending lectures.

In-class laptop use should be restricted to course-related activities (e.g., taking notes). You will be asked to turn off your laptop if you are engaged in non-class activities.

Cellphones and other electronic devices

Please be certain to turn off or put in silent mode all cell phones, pagers, and any other devices that produce distraction prior to entering the classroom.

Late arrivals

If you must arrive late or leave early, please do so quietly and with a minimum of distraction.

Be respectful of others

Respect differing points of view offered by students. Independent discussions should not be happening when someone is addressing the class.

I expect you to come to class prepared

“Prepared” means you have completed the readings before class starts and written down any questions you had. Be prepared to take notes.
